Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

FINAL REJECTION

The rejections under 35 USC, 112 second paragraph, and over Maneatis (US 5,727,037) and Bisanti et al are withdrawn in view of the amendments to the claims and claim 9 was canceled.

Claim Rejections

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 3-4 and 13 are rejected under 35 USC 102(e) as being anticipated by Tachimori (US 6,954,511).

As the best construed, Tachimori discloses in Figures 6-8 a PLL circuit comprising:

- a first charge pump circuit (21), a second charge pump circuit (22); a VCO (5) and a loop filter (3-4). The loop filter (520) including:
 - a first element block having a capacitive element (CF1);
 - a second element block having a resistive element (RF1) coupled in series to the first element block;
 - a third element block (RLP);

Art Unit: 2816

- a first input terminal for receiving a first electric current (ICP1) and being provided at the side of the second element block;
- a second input terminal coupled to a connection point between the first element block and the second element block for receiving a second electric current (ICP2); and
- wherein the total voltage generated in the first and second blocks is employed as an output signal

Response to Applicants Arguments

The applicant argues that first and second electric current of Biasnti have opposite direction. The argument is persuasive. However, this limitation is disclosed in the Tachimori reference as stated above.

Allowable Subject Matter

Claims 5-6, 12 and 14-20 are allowed.

The claims are allowed because the prior art does not show the operational amplifier as combined in claims 5-6 and the first input terminal is provided at the side including the first element block as recited in claim 12.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2816

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
